PROFESSIONAL SUMMARY

Quality-focused content & QA specialist transitioning into Front-end Development. Hands-on experience building React + TypeScript apps with responsive UI, Supabase for backend, and state management using Redux / React Query. Strong attention to detail from years in content QA and localization — now applied to accessible, maintainable UI. Seeking a junior frontend role where I can grow and contribute to user-facing products.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, Tailwind CSS, Responsive design

Frameworks / Libraries: React, Next.js

State & Data: Redux, React Query, Supabase, REST APIs

Tooling: Git, GitHub, Vercel/Netlify, npm, react-hook-form

Other: Localization & content QA, cross-browser testing, writing clear bug reports

PROJECTS

Hotelya — Hotel Booking App [[GitHub](#)] [[Live Demo](#)]

React, TypeScript, Tailwind, Supabase, Next.js

- Built a searchable hotel listing with server-side filtering and URL-based query sync, enabling shareable and bookmarkable search results.
- Implemented a complete booking flow (check-in/out, guest selectors, cancellation policies) integrated with Supabase authentication and database, with support for six languages (EN, AR, FR, DE, ES, IT).
- Optimized performance for a large dataset of 1,200+ hotels by implementing pagination and batched queries to overcome row limits and ensure scalability.

SmartCart — E-commerce App [[GitHub](#)] [[Live Demo](#)]

React, TypeScript, Redux Toolkit, Supabase, Tailwind CSS

- Built Favorites & Cart pages with optimistic updates and toast notifications.
- Implemented a cart system supporting guest users (localStorage) and authenticated users (Supabase), with a centralized data-fetching layer.

Expensify — Modern Expense Tracker App [[GitHub](#)] [[Live Demo](#)]

React, TypeScript, Tailwind CSS, and Supabase

- Designed a clean, responsive UI with dark/light mode and multi-language support (EN/AR).
- Integrated Supabase for authentication and secure expense storage.

WORK EXPERIENCE

January–December 2020 / September 2022–Present

Senior Content QC / Quality Control Manager [Arabic Localizer]

- Led QA for localization projects; created checklists and acceptance criteria to ensure published content met client standards.
- Collaborated with DTP and developer teams; wrote clear bug reports and reproduction steps to speed fixes and reduce rework.

January 2021–September 2022

Content Editor Specialist [Nagwa]

- Launched the “NAGWA Readers” product (Arabic & English reading + listening experience).
- Reviewed app content and verified fixes with developers.
- Reproduced and documented bugs, tracked fixes, and tested releases before deployment.

January 2014–September 2019

Content QC / Senior Content QC [Hindawi Publishing Corporation]

- Converted manuscripts to HTML/PDF/ePub and verified format/consistency across outputs. Performed acceptance testing for new tooling and publishing workflows.

February 2013–September 2013

Medical Representative [PharmaMix]

- Promoted and marketed pharmaceutical products to physicians by assessing client needs, presenting solutions, and delivering product information and samples.

August 2012–October 2012

Chemist [Cairo Lab]

- Performed laboratory testing (chemical, microscopic, etc.) and prepared detailed reports with analytical comments on patient samples.

EDUCATION

B.Sc. in Science — Chemistry/Geology, Cairo University (2008–2012) — Grade: Good

CERTIFICATIONS

- The Ultimate React Course 2024: React, Next.js, Redux & More [[Udemy](#)]
- The Complete JavaScript Course 2024: From Zero to Expert! [[Udemy](#)]
- TOEFL-ITP [AMIDEAST]

LANGUAGES

English: Very good
